

# 2009 - Sawfly, Borers, Hail Damage, Herbicide Damage

August 6, 2009

## 2009 Landscape Advisories

### August 6, 2009

Honeylocust Spider Mite, Poplar-and-Willow Borer, Zimmerman Pine Moth  
honeylocust spider mite, poplar-and-willow borer, zimmerman pine moth, degree days and pest monitoring timeline

### July 27, 2009

Broadleaved Herbicide Damage  
aspen leaf blight and leaf spot, oystershell scale, cooley spruce gall adelgid, pine needle scale, broadleaved herbicide damage, degree days and pest monitoring timeline

### July 9, 2009

Cotton/Melon Aphid, Elm Scale, Lace Bugs, Horsechestnut Leaf Blotch  
cotton/melon aphid on catalpa, european elm scale, lace bugs, horsechestnut leaf blotch, degree days and pest monitoring timeline

### June 18, 2009

Benefits of Rain  
the benefits of rain, lecanium scale, poplar borer, cottony maple scale, black pineleaf scale, fletcher scale, degree days and pest monitoring timeline

### June 4, 2009

Hail Damage, Honeylocust Canker  
hail damage, rose aphid, honeylocust plant bug, black cherry aphid, european pine sawfly, cankerworms, fire blight, maple anthracnose, powdery mildew on rose, honeylocust canker, degree days and pest monitoring timeline

### May 14, 2009

Elytroderma Needlecast, Borers, Oak-Leaf Blister  
elytroderma needlecast, lilac-ash borer, banded ash borer, aphids, cankerworms, oak-leaf

blister, powdery mildew, degree days and pest monitoring timeline

**May 7, 2009**

Pine Needle Scale, Honeylocust Plant Bug and Gall Midge

pine needle scale, black pine aphids, hackberry nipple-gall maker, cankerworm, honeylocust plant bugs, honeylocust pod gall midge, degree days and pest monitoring timeline

**April 23, 2009**

Dothistroma, Elm Scale, Root Weevils

dothistroma needle blight, powdery mildew, european elm scale, root weevils, cottonwood leaf beetle, degree days and pest monitoring timeline

**April 17, 2009**

Pine Sawfly, Birch Leafminer

european pine sawfly, european pine shoot moth, cooley spruce gall adelgid, birch leafminer, cankerworm, degree days and pest monitoring timeline

**April 2, 2009**

Egg Scouting, Winter Injury, Weather History

dormant oil, boxelder bugs, poplar twig gall-fly, spruce ips, scouting for egg masses, upcoming insect activity, winter injury of evergreens, weather summary
