

Peach Twig Borer, First and Second Generations

The column that says “Keep Fruit Protected Up To” is the end of the first generation egg hatch. Between the date in this column, and the date in the “2nd Gen. Start Spray Dates”, there is no need to do anything. For the 2nd generation, apply two cover sprays where damage was bad (starting at the earlier date). Otherwise, for locations with minimal damage, apply one cover spray at the later date.

County	Location	Start Date (high injury last year)	Start Date (little injury last yr)	Keep Fruit Protected Up To:	2nd Gen. Start Spray Dates
