

Peach Twig Borer, Second and Third Generations

The column that says “Keep Fruit Protected Up To” is the end of the second generation egg hatch. Between the date in this column, and the dates in the “3rd Gen - Apply Spray” columns, there is no need to do anything. For both 2nd and 3rd generations, apply two cover sprays where damage was bad (starting at the earlier date). Otherwise, for locations with minimal damage, apply one cover spray at the later date for each generation. (Sites with no damage won’t need any applications.)

County	Location	Second Generation - Apply Spray			Third Generation - Apply Spray
