

Peach Twig Borer, First and Second Generations

Apply the first spray based on the injury level at your site. Typically, only one application is needed in the first generation. The column that says “Keep Fruit Protected Up To” is the end of the first generation egg hatch. Between the date in this column, and the date in the “2nd Gen. Start Spray Dates”, there is no need to do anything.

| County | Location | Start Date (high injury last year) | Start Date (little injury last yr) | Keep Fruit Protected Up To: | 2nd Gen. Start Spray Dates |
