

Codling Moth Spray Timing Information, First and Second Generations

- Most locations are in the “period of greatest egg hatch”. If you want to spray the minimum amount, keep fruit protected during these dates.
- Otherwise, if your starting date is coming up, choose either Option A or B.
- At the “End of First Gen..” wait to spray again until the start of the second generation. More of these dates will be provided in the next advisory.
- Dates in italics are in the past.

County	Location	Option A Apply First Spray	Option B		Period of Greatest Egg Hatch	End of First Gen.	Start of 2nd Gen.
			Apply oil	Apply First Insecticide
