

Codling Moth Spray Timing Information, First and Second Generations

Option 1 (high population; most of Utah) - Apply the first treatment at the date shown below under “Apply First Spray.” Repeat every 14-21 days if using a conventional product or every 7 days if using an organic product until “End of First Gen.”

Option 2 (moderate population) - Apply the first treatment at the date shown below under “Apply First Spray.” For the first generation, repeat once, 14-21 days later if using a conventional product, or repeat 2-3 times every 7 days if using an organic product.

Option 3 (low population) - Keep fruit protected only from beginning to end of the “Period of Greatest Egg Hatch.”

| County | Location | Apply First Spray | Period of Greatest Egg Hatch | End of 1st Gen. | Start of 2nd Gen. |
