

## Codling Moth Spray Timing Information, First Generation

**Option 1** (high population; most of Utah) - Apply the first treatment at the date shown below under “Apply First Spray.” Repeat every 14-21 days if using a conventional product or every 7 days if using an organic product until “End of First Gen.”

**Option 2** (moderate population) - Apply the first treatment at the date shown below under “Apply First Spray.” For the first generation, repeat once, 14-21 days later if using a conventional product, or repeat 2-3 times every 7 days if using an organic product.

**Option 3** (low population) - Keep fruit protected only from beginning to end of the “Period of Greatest Egg Hatch.”

County	Location	Apply First Spray	Period of Greatest Egg Hatch	End of 1st Gen.	Start of 2nd Gen.
